PARTNERSHIP LIFE ASSURANCE COMPANY LIMITED

Return for the year ended 31 December 2013

Supplementary notes to the returns

Form 2

***0201* Waiver 1681111**

The PRA, on the application of the firm, made a direction under section 138A of the Financial Services and Markets Act 2000 in November 2013. The effect of the direction is to modify the provisions of INSPRU 3.1.35R and IPRU (INS) Appendix 9.3 so that a more appropriate rate of interest is used for assets taken in combination.

***0204* Budget announcement 19 March 2014**

We have considered the implications for our solvency position, as included in this return, of the Chancellor's recent budget announcement that from next year individuals will have increased flexibility on how they use the proceeds of their pension funds. We are satisfied that no adjustment is necessary to the capital resources requirement of PLACL as calculated prior to the announcement.

Form 3

***0301* Reconciliation of Net Admissible Assets**

	2013 £'000	2012 £'000
Net Admissible Assets as per Form 13 L89 other than long term insurance business assets	247,826	164,796
Net Admissible Assets as per Form 13 L89 long term insurance business assets	3,924,732	3,627,695
Less: Form 14 Lines 11,12,49	(3,733,277)	(3,464,544)
Less: Form 15 Line 69	(26,108)	(1,158)
Total Capital Resources after deductions Form 3 Line 79	413,171	326,789

***0313* Reconciliation of Profit and Loss Account and other reserves**

	2013 £'000	2012 £'000
Opening Profit & Loss Account and other reserves as per Form 3 Line 12, Column 4	191,931	103,432
Profit in period from non-technical account as per Form 16 Line 59	58,080	2,063
Increase in long-term insurance fund during year as per Form 40 Line 39	224,395	591,531
Increase in net mathematical reserves during the period	(196,093)	(505,095)
Closing Profit & Loss Account and other reserves as per Form 3 Line 12, Column 3	278,313	191,931

***1305* Maximum extent of exposure to one counterparty– other than long term insurance business exposure**

The maximum extent to which, in accordance with any such guidelines, it was permitted to be exposed to any one counterparty, other than by way of exposing to an approved counterparty, during the financial year was 5% of the Business Amount.

During the financial year this amount was not exceeded.

***1306* Counterparty exposure – other than long term insurance business**

No counterparty exposure at the year end exceeded 5% of the sum of the base capital resources requirement and the long term insurance liabilities, net of reinsurance.

***1310* Amounts set off**

Amounts due to or from the Company have been set off to the extent permitted by generally accepted accounting principles.

***1312* Counterparty exposure – long term insurance business**

As at 31 December 2013, the exposure to corporate bonds (market value including accrued interest) to the following counterparties was as follows and therefore exceeded 5% of the sum of the base capital resources requirement and the long term insurance liabilities, net of reinsurance:

<i>Counterparty</i>	<i>Total exposure</i>
Banque europeenne d'investissement ORG	£390,249,200
HM Government Cabinet Office	£115,503,004

***1315* Line 83 details**

Line 101, Other asset adjustments, includes the following entries:

	£'000	£'000
Other than long term business assets		
Reclassification of balance with parent undertaking (see note 1507)	(404)	(326)
	<u>(404)</u>	<u>(326)</u>

	2013	2012
	£'000	£'000
Long term business assets		
Index linked swap liability on Form 56 line 17 and Form 13 line 58	1,504	6,355
	<u>1,504</u>	<u>6,355</u>

1319

Maximum extent of exposure to one counterparty-long term insurance business exposure

The maximum extent to which, in accordance with any such guidelines, it was permitted to be exposed to any one counterparty, other than by way of exposing to an approved counterparty, during the financial year was 5% of the Business Amount.

During the financial year this amount was not exceeded other than for an approved counterparty exposure (see 1312).

Form 14

1401

Adverse variations

The long term fund held a number of interest rate, currency and inflation-linked swaps during the year. The swaps involved the exchange of cash flows and not of the underlying principal amount. No provision for adverse change is required, as all derivatives that impose an obligation on the fund are strictly covered.

1402

Assets and liabilities

- (a) There are no charges over any assets of the Company;
- (b) The long term fund does not attract capital gains tax, and therefore, no provision, potential or otherwise, has been made for any liability to capital gains tax that might arise if the company disposed of its assets at the values stated in this return;
- (c) There are no other liabilities being contingent liabilities not included in Form 14;
- (d) There have been no guarantees, indemnities or other contractual commitments effected by the Company other than in the normal course of its insurance business, in respect of the existing or future liabilities of any associated bodies;
- (e) There is no other uncertainty where such a description is, in the opinion of the Directors, necessary for a proper understanding of the financial position of the Company.

***1405* Other adjustments**

Line 74, Other adjustments to liabilities includes the following entries:

	2013 £'000	2012 £'000
Long term business assets		
Index linked swap liability net assets on Form 13 line 58 and Form 56 line 17	1,504	6,355
	<hr/>	<hr/>
	1,504	6,355

Form 15

***1501* Adverse variations**

No provision for reasonably foreseeable adverse variations is required as no assets are held, nor transactions entered into, which would give rise to a future liability which would not be covered by appropriate assets.

***1502* Assets and liabilities**

- (a) There are no charges over any assets of the Company included in Form 13.
- (b) There is no potential liability to taxation on chargeable gains which may arise if the company disposes of its assets.
- (c) There are no other liabilities being contingent liabilities not included in Form 15.
- (d) There have been no guarantees, indemnities or other contractual commitments affected other than in the course of insurance business, in respect of related companies.
- (e) There is no other uncertainty where such a description is, in the opinion of the Directors, necessary for a proper description of the financial position of the company.

***1507* Other adjustments to liabilities**

Line 83, Other adjustment to liabilities, includes the following entries:

	2013 £'000	2012 £'000
Reclassification of balance with parent undertaking (see note 1318)	(404)	(326)
	<hr/>	<hr/>
	(404)	(326)

Form 16

***1603* Income / (charges)**

The charges included in Form 16 Line 21 are as follows:

	2013 £'000	2012 £'000
Amortisation of debt issuance costs	-	(75)
	<hr/>	<hr/>
	-	(75)

Form 17

***1701* Derivatives**

There is no liability to repay the variation margin. A variation margin of £6,754k is included in line 45 of form 13. No variation margin is included in respect of other than long term business.

Form 40

4008

Management services

The group undertaking which paid the staff costs, accommodation costs and administrative expenses is Partnership Services Limited. A management charge of £89,503,029 (2012: £71,244,779) was made to the Company for services provided.

4009

Connected party transactions

Other than the transaction shown in Note 4008, there were no material connected party transactions.

Form 47

4702

Approximations premium for Defined Benefit split by product

Given that there is not a specific premium for each policy the premium has been allocated between index and non-index relative to the gross premium reserves held.

4703

Approximations determining number of policyholders

For policies with more than once tranche, the policy count was allocated to the tranche with the highest premium

Form 48

4802

Assets in default

The Company holds no assets that are in default and so no estimated income on assets in default has been assumed.

4803

Callable bonds

A number of bonds held have the feature that the issuer is able to repay those bonds at a date earlier than the maturity date. For the purposes of determining the yield on those bonds, we have calculated the implied yield at both the earliest call date, and at the maturity date, and taken the lower of those two yields. The value of these “callable” bonds is £652.3m (2012: £700.6m).

Form 49

4901

Rating agency

The split by credit rating is derived from the Standard & Poor’s, Moody and Fitch ratings for each stock. If two or more ratings are available the second highest rating is used otherwise the single available rating is used.

Form 51

5102

Approximations apportioning products between codes

For policies with more than once tranche, the policy count was allocated to the tranche with the highest premium

5103

Miscellaneous products

Products included within Code 435, “Miscellaneous non-profit”, are longevity insurance contracts provided to other parties in relation to Equity Release mortgage and reversion contracts which are valued at £439k (2012: £299k).

Form 54

***5403* Miscellaneous products**

Products included within Code 910, "Miscellaneous index linked", are long-term care policy index linked and PLA index linked contracts which are valued at £38,428k (2012: £34,062k).

Form 57

***5701* Breakdown of negative reserves**

Product code number	Product description	Net mathematical reserves in £000
300	Regular premium non-profit WL/EA OB	(4)
305	Single premium non-profit WL/EA OB	0
325	Level term assurance	(1,422)
330	Decreasing term assurance	(805)
365	Income protection non-profit (reviewable premiums)	(333)
UK Life Form 51 Product code numbers 300, 305, 325, 330, 365		(2,564)

These negative reserves have been used to partially offset against:

Product code number	Product description	Net mathematical reserves in £000
395	Annuity non-profit (PLA)	17,689

***5702* Risk adjustment to yields**

Product Group	Risk adjusted yield on matching assets %	Yield on matching assets before risk adjustment %
UK Life form 51 product code numbers 300, 305, 325, 330	1.61	1.61
UK Life form 51 product code numbers 365, 370	1.87	2.33
UK Pension form 51 product code numbers 405	4.59	4.82
UK Life form 51 product code numbers 300, 305, 325, 330	4.59	4.82
UK Life form 51 product code numbers 395	4.59	4.82
Miscellaneous	4.59	4.82

PARTNERSHIP LIFE ASSURANCE COMPANY LIMITED

Returns for the year ended 31 December 2013

Rule 9.29

- (a) As required by Rule 9.29 of the Interim Prudential Sourcebook for Insurers (IPRU (INS)), the investment guidelines for the use of derivative contracts for both long term and other than long term funds are set out below. These are fully explained in the Company's Investment Management Agreement with its fund managers and are consistent with the investment strategy.
- Derivatives will only be used in accordance with PRA Guidelines for the purpose of efficient portfolio management or reduction in investment risk;
 - Derivatives must not be used for speculative purposes;
 - Derivatives must be fully covered by the assets of the fund;
 - Counterparty risk – for exchange traded contracts, the exchange must be classed as “regulated” by the investment committee;
 - Over the counter contracts transactions must only be transacted with pre-approved counterparties;
 - Counterparty limits are consistent and monitored in line with the fund's aggregate exposure guidelines;
 - Controls and Monitoring:
 - Derivative trades are ordered by portfolio by our external investment manager. Trading, pricing and settlement of the derivatives are performed by a separate team at the external investment manager. Collateral management is controlled by a third independent team at the external investment manager. Monitoring of all derivative positions and exposures is additionally performed internally.
- (b) Contracts which are not reasonably likely to be exercised are not allowable under the guidelines;
- (c) There were no such contracts as described in (b) above during the year;
- (h) At no stage during the year did we use a derivative or quasi-derivative which required a significant provision under INSPRU 3.2.17R or did not fall within the definition of a permitted derivative contract under the permitted links rules;
- (i) The total value of any fixed consideration received by the insurance company during the year for granting rights under derivatives and quasi derivatives was zero and there were no such contracts under which such rights were granted since the Company does not grant rights under derivative and quasi derivatives.

PARTNERSHIP LIFE ASSURANCE COMPANY LIMITED

Returns for the year ended 31 December 2013

Rule 9.30 For the period to 31 December 2013, the controlling company of Partnership Life Assurance Company Limited was Partnership Assurance Group plc. The controlling company of Partnership Life Assurance Group plc is Cinven Limited. Private equity funds managed by Cinven Limited hold 51.9% of the shares issued and voting power by Partnership Assurance Group plc.

PARTNERSHIP LIFE ASSURANCE COMPANY LIMITED

Valuation statements as at 31 December 2013 in the form prescribed under rule 9.31 of the Interim Prudential Sourcebook for Insurers.

Valuation Report on Partnership Life Assurance Company Limited as at 31 December 2013

1 Introduction

(1) Date of investigation

The investigation relates to 31 December 2013.

(2) Date of previous investigation

The previous investigation related to 31 December 2012.

(3) Interim valuations

There have been no interim valuations (for the purposes of rule 9.4) since the date of the previous investigation.

2 Product range

There have been no changes to the Partnership products since the last investigation.

3 Discretionary charges and benefits

(1) The Company does not have the option to apply a market value reduction on any of its products.

(2) There has been no change in premium for the Company's reviewable protection policies.

(3) The Company does not offer any non-profit deposit administration contracts.

(4) – (10) The Company does not have any policies to which these paragraphs apply.

4 Valuation basis (other than for special reserves)

(1) A prospective valuation method has been used for all product types, with minor exceptions described below.

(i) Annuities in payment (including those arising from Defined Benefit schemes)

These are non-profit annuities arising from premiums in respect of occupational or personal pension funds, written on either a single life or joint life last survivor basis, which provide a level series of payments throughout the life of the annuitant(s), reducing where appropriate on the death of the first life, or incorporate a provision for payments to increase annually at a guaranteed rate. The annuity may incorporate a guaranteed period of payment.

For policies where the contract has started but premium has not yet been received, the mathematical reserve has been set to be the value of the premium expected to be received less expected initial commission payments.

(ii) Care annuities

These are non-profit annuities written for the sole purpose of providing an income to cover the cost of care, written on a single life basis. The benefit may be a level series of payments throughout the life of the annuitant or incorporate a provision for payments to increase annually at a guaranteed rate.

(iii) Deferred annuities

These are non-profit deferred annuities, written on a single life basis. The benefit may be a level series of payments throughout the life of the annuitant or incorporate a provision for payments to increase annually at a guaranteed rate.

(iv) Whole life assurance

These are non-profit whole life assurances, written on a single life or joint life last survivor basis. The benefit is a level lump sum payment on death.

(v) Term assurance

These are non-profit term assurances, written on a single life or joint life first death basis. The benefit is either a level or decreasing lump sum payment on death.

(vi) Family income benefit

These are non-profit term assurances, written on a single life or joint life first death basis. The benefit is an annual income payable on death until the end of the term.

(vii) Permanent health insurance

These are regular or single premium pre-funded long-term care policies where the benefit is a regular income to assist with the cost of long term care should the policyholder need this in the future.

(2) Table 1 below sets out the interest rates used for each product group (net of investment expenses as per 6 (1)):

Table 1

Product Group	Interest rate as at 31 December 2013	Interest rate as at 31 December 2012
Annuities in payment	4.31%	3.76%
Policies with pending premiums	4.28%	3.77%
Care annuities	1.70%	2.26%
Deferred annuities	1.70%	2.26%
Whole life assurance negative reserves	4.59%	4.00%
Whole life assurance positive reserves	1.44%	1.07%
Term assurance negative reserves	4.59%	4.00%
Term assurance positive reserves	1.44%	1.07%
Family income benefit negative reserves	4.59%	4.00%
Family income benefit positive reserves	1.44%	1.07%
Permanent health insurance	1.70%	2.26%

(3) For corporate bonds the allowance for credit risk has been calculated for each bond individually. The allowance has been calculated as sum of two components: a minimum component and a varying component. The minimum component has been set to equal twice the historic default industry experience for each rating class, allowing for recovery. The varying component has been set at 20% of the spread in excess of the minimum component. The spread is calculated with reference to Gilts. For foreign denominated bonds, the spread is calculated with reference to overseas government issued bonds, where the credit rating is at least as good as for gilts.

For loans secured by mortgages, the yield has been determined after deducting the cost of the No Negative Equity Guarantee from the expected mortgage repayments, where cashflows are determined using prudent assumptions. The No Negative Equity Guarantee effectively provides the customer with a put option to sell their property on repayment of the loan with an exercise price equal to the value of the loan at that point. If the house price exceeds the loan then the option is out of the money (and expires without value) while if the house value is lower than the loan balance, the difference is payable to the customer (by reduction of the amount repayable under the loan). The value of the No Negative Equity Guarantee is approximated by calculating the value of these put options at the year end. The Black-Scholes closed-form solution is used to value each of these put options.

(4) Table 2 below sets out the mortality table used for each product group:

Table 2

Product Group	Underwriting Type	Mortality Table as at 31 December 2013	Mortality Table as at 31 December 2012	Life Expectancy	Note
Annuities in payment	Medically	Modified E&W Population Mortality with CMI 2012 M (1.75%) and CMI 2012 F (1.50%)	Modified PML/PFL92(U=2013) modified ave MC& LC floor 1.5%	M65 = 24.8 M75 = 15.9 F65 = 26.8 F75 = 17.6	1
Annuities in payment	Rules based	Modified PNM00/PNF00(U=2014) modified ave MC& LC floor 1.5%	Modified PNM00/PNF00(U=2013) modified ave MC& LC floor 1.5%	M65 = 25.0 M75 = 16.1 F65 = 26.8 F75 = 17.3	1
Care annuities	Rules based	Modified PCMA/PCFA00(U=2014) bespoke	Modified PCMA/PCFA00(U=2013) bespoke	M65 = 25.4 M75 = 16.0 F65 = 27.1 F75 = 17.2	1

Whole life assurance / Term assurance	Medically	86.25% TMN00/ 86.25% TMS00 86.25% TFN00/ 86.25% TFS00	86.25% TMN00/ 86.25% TMS00 86.25% TFN00/ 86.25% TFS00	-	2
Family income benefit	Medically	86.25% TMN00/ 86.25% TMS00 86.25% TFN00/ 86.25% TFS00	86.25% TMN00/ 86.25% TMS00 86.25% TFN00/ 86.25% TFS00	-	2
Permanent health insurance	Medically	44% AM92 44% AF92	44% AM92 44% AF92	-	3

Note 1

For medically underwritten annuity products, the rates of mortality used in the valuation are based on Modified E&W Population Mortality with CMI 2012 M (1.75%) and CMI 2012 F (1.50%), with adjustments made to allow for the impact of premium size, joint-life status, spouse percentage, postcode and future mortality improvement. Additional mortality loadings are made depending on the type and severity of medical impairment. In the case of annuities priced using a rules-based automated underwritten system, the rates of mortality used in the valuation are based on the PCMA/PCFA00(U=2013) p-spline table with suitable additional loadings depending on the state of health of the policyholder. In both cases the adjustments and loadings were derived from the results of ongoing mortality investigations. For B&CE, the rates of mortality used in the valuation are based on the PCMA/PCFA00(U=2013) lc (min 1.5% p.a) table, with a 0.5% p.a. addition to the annual improvement factors, with adjustments based on age.

Allowance for future mortality improvement has been made by applying “reduction factors” to the base mortality table. The reduction factors for medically underwritten policies depend on age and calendar year and are taken from the continuous mortality investigation longevity projection model (CMI 2012) with long term improvement rate of 1.25% and 1% for males and females respectively. For annuities priced using rules-based automated underwritten a p-spline approach to estimating future improvement rates has been used.

For term assurances sold as decreasing term riders to annuities, the mortality basis was taken to be the same as for the annuity product.

The life expectancy figures provided are those consistent with a standard healthy life. Due to the high ages associated with the Deferred Care Annuities no equivalent standard healthy life expectancy could be provided at age 45.

Note 2

Additional ‘years to age’ adjustments were made for products sold through various distribution channels. Products sold to “Council House” owners had an additional plus two years to age and those sold to members of the English Bowling club plus four years to age. For products sold to members of the armed forces the basis used was 145% TM92 select.

For term assurances sold as decreasing term riders to annuities, the mortality basis was taken to be the same as for the annuity product.

Note 3

The rates of morbidity assumed in the valuation of pre-funded long-term care products, a mortality decrement (that does not incur a claim) is modelled at 44% of AM/AF92(Ultimate).

Note 4

No specific allowance has been made for any possible detrimental impact of significant changes in the incidence of disease or developments in medical

science on the mortality experience of the Company in the tables of mortality assumed in the valuation of contracts beyond that noted above.

(5) Not applicable

(6) Table 3 below sets out the expense basis used for each product group:

Table 3

Product Group	Expense assumption as at 31 December 2013	Expense assumption as at 31 December 2012	Expense assumption as at 31 December 2013	Expense assumption as at 31 December 2012

(8) Not applicable

(9) Table 4i sets out the lapse assumptions used for each appropriate product group for policies with positive reserves

Table 4i

Product Group		Average lapse rate for the policy years			
		1-5	6-10	11-15	16-20
Level Term - Healthy lives	Lapse	8.82%	7.00%	7.00%	7.00%
Level Term - Impaired lives	Lapse	8.21%	8.00%	8.00%	8.00%
Decreasing Term - Healthy lives	Lapse	8.82%	7.00%	7.00%	7.00%
Decreasing Term - Impaired lives	Lapse	8.21%	8.00%	8.00%	8.00%

Whole of Life – all lives	Lapse	0.00%	0.00%	0.00%	0.00%
---------------------------	-------	-------	-------	-------	-------

Table 4ii sets out the lapse assumptions used for each appropriate product group for policies with negative reserves

Table 4ii

Product Group		Average lapse rate for the policy years			
		1-5	6-10	11-15	16-20
Level Term - Healthy lives	Lapse	14.44%	12.00%	12.00%	12.00%
Level Term - Impaired lives	Lapse	13.63%	13.00%	13.00%	13.00%
Decreasing Term - Healthy lives	Lapse	14.44%	12.00%	12.00%	12.00%
Decreasing Term - Impaired lives	Lapse	13.63%	13.00%	13.00%	13.00%
Whole of Life – all lives	Lapse	0.00%	0.00%	0.00%	0.00%

An impaired life in Tables 4i and 4ii relates to an individual who has been rated as having an increase to standard mortality of at least 250%. For those lives with mortality ratings below 250% a linear interpolation between healthy and impaired has been taken for the purpose of the lapse assumption used.

(10) Not applicable

(11) Derivative contracts in the form of interest rate swaps, inflation swaps and foreign exchange forwards are held.

The foreign exchange forwards are taken to be covering specific bonds maturing at the same time as the swap with proceeds equal to the nominal of the swap.

For the calculation of the valuation interest rate, the floating leg of interest rate swaps has been replaced by an immediate receipt of the nominal and prepayment of nominal on termination of the swap. A 25 basis point prudent deduction has been allowed for to cover counterparty risk, security of deposits and risk of not earning LIBOR on those deposits. For the determination of cashflow matching requirements (INSPRU 1.1.34 R) the interest rate swap floating leg cashflows are determined from the contract and are offset by the cashflow of the nominal of the swap at the beginning and the end of the swap.

Inflation swaps have been purchased, whereby the Company pays a fixed leg and receives a floating leg, to cover all policyholder benefits linked explicitly or implicitly to price (RPI) inflation.

Excess inflation swaps above those required to match the linked benefits are used to match some of the expenses linked to price or earnings inflation. The swap proceeds have been projected using the same rate of RPI used to project the expense liability.

(12) All INSPRU rule changes with regards to lapses and negative reserves were implemented as at 31 December 2006.

5 Options and guarantees

- (1) Not applicable
- (2) Not applicable
- (3) Not applicable
- (4) Not applicable

6 Expense reserves

(1) The aggregate amount of expense loadings expected to arise during 12 months from 31 December 2013 from reserves to meet expenses in fulfilling contracts in-force, as 31 December 2013 is £ 8.6m.

Homogeneous risk group	Implicit allowances	Explicit allowances (investment)	Explicit allowances (other)	Non - attributable expenses	Total
Annuities in payment		£ 3.0m	£ 1.7m	£ 2.2m	£ 7.0m
Care annuities		£ 0.2m	£ 0.0m	£ 0.1m	£ 0.3m
Whole life assurance / Term assurance		£ 0.0m	£ 0.1m	£ 0.0m	£ 0.1m
Equity Release	£ 1.2m				£ 1.2m
Total	£ 1.2m	£ 3.2m	£ 1.8m	£ 2.3m	£ 8.6m

(2) The Equity Release implicit allowance serves to reduce the yield on Equity Release, so does not lead to an explicit reserve

(3) The figure of £ 8.6m for expenses in 6 (1) is based on the provision for future expenses. This is a long term assumption and has been determined on the basis of fully outsourcing all maintenance functions. This amount is lower than the corresponding figure on line 14 of Form 43 of £ 8.8m which includes investment expenses of £ 4.8m.

(4) The requirement in respect of the expenses of continuing to transact new business during the 12 months following the valuation date was considered by examining a number of scenarios involving different levels of new business, the

Company's likely expenditure in the coming year and margins arising from new business. On the basis that new business in respect of existing products would be not less than 64% of planned no additional reserve was required.

(5) The Company had no branch premises and its business is conducted entirely through independent financial intermediaries dealing with its small number of head office staff. The additional costs of closure to new business 12 months after the valuation date were estimated to £15.8m. This was derived after consideration for:

- Redundancy costs on closure
- Property costs

After allowing for the margins expected to arise on new and in-force business prior to closure as well as the Company's fixed operating costs, no overall closed fund reserve is required.

(6) Nonattributable expenses have been allocated on a per policy basis and reserves calculated based on a total expense allowance per policy

Homogeneous risk group	Attributable Expense Reserves	Non Attributable Expense Reserves
Annuities in payment	£ 39.8m	£ 52m
Care annuities	£ 0.2m	£ 0.2m
Whole life assurance / Term assurance	£ 0.7m	£ 0.3m

7. Mis-matching reserves

- (1) The reserves for the non-Sterling denominated liabilities are de minimis.
- (2) Not applicable.
- (3) The total reserve set aside for currency mis-matching was £0.45m. This reserve was derived by considering the currency mis-match in question and allowing for an appropriately prudent movement in exchange rates over the expected duration of the mis-match.
- (4) The most onerous scenario under INSPRU 3.1.16R for the purpose of calculating the resilience capital requirement was a decrease in the long term gilt yield by 69 basis points.
- (5) The same scenario was applied to each territory.
- (6) The increase in the aggregate amount of long-term liabilities under this scenario was £ 221.8m with a corresponding change in the value of assets allocated to match the liabilities of £ 182.5m. The total resilience capital requirement was £ 42.9m
- (7) The assets were tested to ensure that the cash in-flows were sufficient to meet the corresponding liability outflows. Shortfalls were met by notionally selling assets

at a yield 2% above current yield, or by rolling forward past surpluses at an earned rate of the higher of the forward rate implied by UK gilts and the forward rate implied by interest rate swaps less 25 basis points. No reserve was required to meet this test.

8 Other special reserves

(1) No further additional reserves to which this paragraph applies were established.

9 Reinsurance

(1) In respect of facultative reinsurance arrangements the aggregate premium payments by the Company to reinsurers not authorised to carry on insurance business in the United Kingdom was £6.4m. At the valuation date all of these premiums were passed back to the Company on a deposit back arrangement.

(2) Table 5 below sets out details of the reinsurance arrangements in respect of premiums payable by the Company during the report period.

Table 5

	Reinsurer	Description	Deposit back	Treaty status	Total mathematical reserves ceded	Premiums payable during report period	Retention	Notes
1	Hannover Ruck	The reinsurer is liable to meet 85% of all medically underwritten impaired annuities written on or after 1 April 2008. Closed 30 June 2011.	Yes	Closed	£ 708.5m	£ 0.3m	15%	(a), (c)
2	Hannover Ruck	The reinsurer is liable to meet 70% of all medically underwritten impaired annuities written on or after 1 July 2011. Closed 31 March 2012	Yes	Closed	£ 273.9m	£ 0.0m	30%	(a), (c)
3	Hannover Ruck	The reinsurer is liable to meet 21.25% of all medically underwritten care annuities priced using a rules based automated underwritten system on or after 1 April 2008. The reinsurer's share increases to 42.5% from 1 April 2009 onwards. Closed 30 June 2009.	Yes	Closed	£ 5.3m	Nil	57.5%	(a), (c)
4	Hannover Ruck	The reinsurer is liable to meet 42.5% of all medically underwritten care annuities priced using a rules based automated underwritten system on or after 1 July 2009.	Yes	Open	£ 76.2m	£ 23.6m	57.5%	(a), (c)

	Reinsurer	Description	Deposit back	Treaty status	Total mathematical reserves ceded	Premiums payable during report period	Retention	Notes
5	Hannover Ruck	The reinsurer is liable to meet 47.5% of impaired annuities written up to 31 December 1999, 95% of impaired annuities written between 1 January 2000 and 31 July 2002, 85% of impaired annuities underwritten between 1 August 2002 and 31 December 2003, and 85% of impaired annuities written between 1 November 2006 and 31 March 2008.	Yes	Closed	£ 196.4m	Nil	5% to 15%	(a), (c)
6	Hannover Ruck	The reinsurer is liable to meet 95% of care annuities underwritten between 1 January 2000 and 31 July 2002, 75% of care annuities underwritten between 1 January 2003 and 31 December 2003 and 42.5% of care annuities underwritten between 1 January 2007 and 31 March 2008.	Yes	Closed	£ 4.5m	Nil	5% to 25%	(a), (c)
7	Partner Re	The reinsurer is liable to meet 47.5% of impaired annuities underwritten on or before 31 December 1999.	Yes	Closed	£ 29.8m	Nil	5%	(a), (c)
8	Pacific Life Re	The reinsurer is liable to meet 85% of all medically underwritten smoker annuities written on or after 3 February 2008	Yes (Held in trust)	Open	£ 224.1m	£ 61.5m	15%	(b), (c)
9	Pacific Life Re	The reinsurer is liable to meet 80% of all medically underwritten lifestyle annuities written between 1 December 2008 and 31 December 2012	Yes	Closed	£ 475.7m	£ 0.3m	20%	(b), (c)
10	Pacific Life Re	The reinsurer is liable to meet 70% of all medically underwritten impaired annuities on or after 1 April 2012	Yes	Open	£ 883.0m	£ 603.3m	30%	(a), (c)

	Reinsurer	Description	Deposit back	Treaty status	Total mathematical reserves ceded	Premiums payable during report period	Retention	Notes
11	Pacific Life Re	A reinsurance slip has been signed covering liabilities from a number of defined benefit schemes. The reinsurer is liable to meet 70% of all medically underwritten impaired annuities.	Yes	Open	£ 37.9m	£ 43.1m	30%	(a), (c)
12	Gen Re	In the event of death the reinsurer is liable to meet 65% of the sum assured on specific term and whole life policies for sums assured up to £214,286. For sums assured in excess of £214,286 the reinsurer is liable 100% of the excess over £214.286. All Term Assurance, Whole of Life, Family Income Benefit policies written since 1 February 2009.	No	Open	£ 1.6m	£ 0.7m	35%	(a), (c)
13	RGA Reinsurance UK Limited	In the event of death the reinsurer is liable to meet 9% of the sum assured on specific term and whole life policies for sums assured up to £500,000. For sums assured in excess of £500,000 the reinsurer is liable to meet 9% of the sum assured up to £500,000 plus 10% of the excess over £500,000	No	Closed	£ 0.2m	£ 0.1m	10%	(b),(c)
14	RGA Americas Reinsurance Company Ltd	In the event of death the reinsurer is liable to meet 81% of the sum assured on specific term and whole life policies for sums assured up to £500,000. For sums assured in excess of £500,000 the reinsurer is liable to meet 81% of the sum assured up to £500,000 plus 90% of the excess over £500,000	No	Closed to new business at 31 st January 2010	£ 1.6m	£ 0.9m	10%	(a),(c)

Notes

- a) The reinsurers Cologne Reinsurance Company United Kingdom Branch, Hannover Ruck, Partner Re, Kolnische Ruckversicherungs Gesellschaft and RGA Americas Reinsurance Company Ltd are not authorised to carry on insurance business in the United Kingdom.
- b) The reinsurers RGA Reinsurance UK Limited and Pacific Life Re are authorised to carry on insurance business in the United Kingdom
- c) None of the reinsurers are connected to the Company

- d) The ceded reserves in respect of treaties 1, 2, 4, 9, 10 and 11 are gross of the management fee reserves. The total management fee reserve at 31 December 2013 in respect of treaties 1, 2 and 4 is £ 28.1m, and in respect of treaties 9, 10 and 11 is £ 51.2m.

PARTNERSHIP LIFE ASSURANCE COMPANY LIMITED

Return for the year ended 31 December 2013

Directors' Certificate required by Rule 9.34 of the Accounts and Statements Rules

We certify that:

1. the returns, comprising Forms 2, 3, 11 to 17, 40 to 43, 46 to 51, 54, 56, 57, 58 and 60 (including the supplementary notes), the statements required by rules 9.29 and 9.30 and the statements, analyses and reports required by rule 9.31, has been properly prepared in accordance with the Accounts and Statements Rules set out in part I and part IV of chapter 9 of IPRU(INS), the Interim Prudential Sourcebook for Insurers, GENPRU, the General Prudential Sourcebook and INSPRU, the Prudential Sourcebook for Insurers; and
2. the directors are satisfied that:
 - a. throughout the financial year, the insurer has complied in all material respects with the requirements of SYSC and PRIN as well as the provisions of IPRU(INS), GENPRU, and INSPRU; and
 - b. it is reasonable to believe that the insurer has continued so to comply subsequently, and will continue so to comply in future.
3. In the directors' opinion premiums for contracts entered into during the financial year and the resulting income earned are sufficient, under reasonable actuarial methods and assumptions, and taking into account the other financial resources of the insurer that are available for the purpose, to enable the insurer to meet its obligations in respect of those contracts and, in particular, to establish adequate mathematical reserves;
4. the sum of the mathematical reserves and the deposits received from reinsurers as shown in Form 14 constitute proper provision at the end of the financial year in question for the long-term insurance liabilities (including all liabilities arising from deposit back arrangements, but excluding other liabilities which had fallen due before the end of the financial year) including any increase in those liabilities arising from a distribution of surplus as a result of an actuarial investigation as at that date into the financial condition of the long-term insurance business; and
5. the directors have, in preparing the return, taken and paid due regard to advice in preparing the return from the actuary appointed by the insurer to perform the actuarial function in accordance with SUP4.3.13R.

PARTNERSHIP LIFE ASSURANCE COMPANY LIMITED

Global business

Financial year ended 31 December 2013

Independent auditor's report to the directors pursuant to Rule 9.35 of the Interim Prudential Sourcebook for Insurers ("IPRU(INS)")

We have audited the following documents prepared by the insurer pursuant to the Accounts and Statements Rules set out in part I and part IV of chapter 9 of IPRU (INS) the Interim Prudential Sourcebook for Insurers, GENPRU the General Prudential Sourcebook and INSPRU the Prudential Sourcebook for Insurers ("the Rules") made by the Prudential Regulation Authority under section 138 of the Financial Services and Markets Act 2000:

- Forms 2, 3, 11 to 17, 40 to 43, 48, 49, 56, 58 and 60, (including the supplementary notes) on pages 1 to 21, 25 to 26, 37, 39, 40 to 45 ("the Forms");
- the statement required by IPRU(INS) rule 9.29 on page 46 ("the Statement"); and
- the valuation report required by IPRU(INS) rule 9.31(a) on pages 48 to 63 ("the valuation report");

We are not required to examine and do not express an opinion on:

- Forms 46, 47, 50, 51, 54 and 57 including the supplementary notes on pages 22 to 24, 27 to 36, 38, 44 and 45;
- the statement required by IPRU(INS) rule 9.30 on page 47; and
- the directors' certificate required by IPRU (INS) rule 9.34 on page 64 ("the directors' certificate").

Our report is provided to the directors of Partnership Life Assurance Company Limited in accordance with rule 9.35 of the Interim Prudential Sourcebook for Insurers. We acknowledge that our report will be provided to the PRA for the use of the PRA solely for the purposes set down by statute and the PRA's rules. Our work has been undertaken so that we might state to the insurer's directors those matters we are required to state to them in an auditor's report on an annual PRA return for an insurer and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the PRA, and the insurer, for our work, for this report, or for the opinions we have formed.

Respective responsibilities of the insurer and its auditor

The insurer is responsible for the preparation of an annual return (including the Forms, the Statement, and the valuation report) under the provisions of the Rules. The requirements of the rules have been modified by a waiver issued under section 138 of the Financial Services and Markets Act 2000 on 19 November 2013. Under IPRU (INS) rule 9.11 the Forms, the Statement and the valuation report are required to be prepared in the manner specified by the Rules and to state fairly the information provided on the basis required by the Rules.

The methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report are required to reflect appropriately the requirements of INSPRU 1.2.

It is our responsibility to form an independent opinion as to whether the Forms, the Statement and the valuation report meet these requirements, and to report our opinions to you.

We also report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the Forms, the Statement and the valuation report are not in agreement with the accounting records and returns; or
- we have not received all the information we require for our audit.

Basis of opinion

We conducted our work in accordance with Practice Note 20 ‘The audit of insurers in the United Kingdom (Revised)’ issued by the Auditing Practices Board. Our work included examination, on a test basis, of evidence relevant to the amounts and disclosures in the Forms, the Statement and the valuation report. The evidence included that previously obtained by us relating to the audit of the financial statements of the insurer for the financial year. It also included an assessment of the significant estimates and judgements made by the insurer in the preparation of the Forms, the Statement and the valuation report.

We planned and performed our work so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the Forms, the Statement and the valuation report are free from material misstatement, whether caused by fraud or other irregularity or error and comply with IPRU (INS) rule 9.11.

In accordance with IPRU (INS) rule 9.35(1A), to the extent that any document, Form, Statement, analysis or report to be examined under IPRU (INS) rule 9.35(1) contains amounts or information abstracted from the actuarial investigation performed pursuant to IPRU (INS) rule 9.4, we have obtained and paid due regard to advice from a suitably qualified actuary who is independent of the insurer.

Opinion

In our opinion:

- (i) the Forms, the Statement and the valuation report fairly state the information provided on the basis required by the Rules as modified and have been properly prepared in accordance with the provisions of those Rules; and
- (ii) the methods and assumptions determined by the insurer and used to perform the actuarial investigation as set out in the valuation report prepared in accordance with IPRU (INS) rule 9.31 appropriately reflect the requirements of INSPRU 1.2.
